DJ Representative	
Option	Votes
Aaron Estridge	100 (100.0%)
VOTER SUMMARY	
Total	123
Abstain	23 (18.7%)

After two days of voting, Aaron Estridge was accepted for the role of DJ Representative with a total of 100 votes (81.3%) voting yes and 23 votes (18.7%) abstained.

Unlike recent years, candidates were able to collect nominations, campaign, or encourage their peers to vote on campus grounds freely. Moreover, it is important to note that the DJ Representative can be a fee-paying UTSC student or a fee-paying non-student community member, usually ONLY elected by radio hosts with no input from our general student membership.

Voting for the DJ Representative, which usually takes place separately from the other director positions, was done on the Simply Voting platform. Aaron Estridge emerged as the ideal candidate to run for this position. His community involvement and work with Radio FWD exempted him from nomination form procedures in order to make the Board of Directors accessible to this hard-working community member.

After reviewing SCCR policies and discussion with current directors and staff, it was decided that the fairest way to choose a DJ Representative at this time was to use the input of our general student membership via the Simply Voting election page. Similar to last year, Radio FWD's DJ Representative was elected by fee-paying UTSC students via the University of Toronto's online voting platform ([utoronto.simplyvoting.com](https://utoronto.simplyvoting.com) - signing in with UTORid) and our non-student membership was not able to cast a vote. The Radio FWD team hopes the DJ Representative elections will have more participation from radio hosts. The Radio FWD team is available to address any concerns or questions regarding our election.
